Dear Francie,

I would like to take this opportunity to express our deep appreciation to Western Risk regarding the support you have demonstrated when insuring our clients, particularly when there have been questions which deviated from our standard policies. Your patience in explaining how to proceed in obtaining quotes combined with your recommendations has been very appreciated by my team members.

We have always felt that our philosophy regarding the value of our clients has been directly in sync with your firm. It has been so reassuring to know that you will take whatever time is necessary to explain the quote and/or meet with our client one on one to insure that they fully understand the coverage and recommendations.

Western Risk plays a substantial role in why Stout Management Company is able to remain a leader in the property management industry.

Thank you again for your service, time, and cooperation your company provide to us on a regular basis. We look forward to a long standing relationship.

Sincerely,

Lisa Recina
